

Updated 8-4-2026. You may have a collaboration/publication that includes multiple research connections. If you do, please follow the most restrictive applicable instruction. e.g., I have both a postdoc who left the US (Category 3) and other Foreign Collaborators/Authors doing research in a Foreign Country (Category 4), then I should follow the rules for (Category 4).

Category	Description	GENERAL: Includes Export Control Guidance	NASA Funded Project: Wolf Amendment	Dept of Defense/War (DoD) Funded Project**	Public Health Service (NIH) Funded Project**	USDA Funded Project	Dept. of Energy (DOE) Funded	NSF Funded Project
1	General Scientific Discussions	(1) Discussions in the US ² regarding Research: Scientific discussions OK if regarding published/publishable research (FRE) ¹ . (2) Discussions "outside" ³ of the U.S. regarding Research: No scientific discussions about unpublished research with persons on or affiliated with an entity on a US Restricted Parties (RP) List4, even if the subject matter is not controlled. (3) Not MTRP: Confirm that the general scientific discussion cannot be construed as participation in a Foreign Talent Recruitment Program. (i.e., Ensure no commitments/remuneration/reward associated with the discussion with a person or entity from a country of concern).	GENERAL+ As long as general scientific discussions regarding research do not constitute a bilateral policy, program, order, or contract, they are permitted. However, these scientific discussions regarding research must also not involve discussions about bilateral collaboration between NASA and Chinese entities. https://science.nasa.gov/researchers/sara/faqs/prc-faq-roses/	GENERAL+ Confirm that the general scientific discussion cannot be construed as collaboration. No collaboration with persons or entities on the Restricted Parties lists is allowed.	GENERAL+ Confirm that the general scientific discussion cannot be construed as collaboration that may require prior approval as a foreign component.	GENERAL	GENERAL	GENERAL+ Confirm that the general scientific discussion cannot be construed as collaboration. No collaboration with persons or entities on the Restricted Parties lists is allowed. ¹⁰
1	Conferences & Meetings	(1) Open Conference: The conference/meeting must meet the criteria for open conference and not be an MFGTRP, per CHIPS & SCIENCE ⁵ (2) Federal Funds Used for Travel: Foreign Travel may Require Approval for use of federal funds to pay for travel. Confirm requirements with your award documents. (3) Conference in the US ² : If open conference/meeting is IN THE US, it is generally fine, as long as research is subject to FRE (subject matter is not controlled). Conference "outside" ³ US: If open conference is OUT OF US OR HOSTED BY A FOREIGN ENTITY IN THE US: Researcher must perform Restricted Parties Search (RPS) for hosting institution. If host Institution is a RP, consider who the attendees are and the consequences of sharing information with these individuals. If your award prohibits collaboration with RP, then you may have to refrain from attendance. (4) Avoid collaboration/co-authorship with persons or entities on RP list (5) Use ORCID: Include your ORCID, if possible, with any published abstract or conference proceeding.	GENERAL+ The conference cannot be a conference with only Chinese participants NASA must approve of use of NASA funds to pay for Foreign Travel The conference cannot be a conference hosted at a RP institution	GENERAL+ DoD may require approval for use of DoD funds to pay for Foreign Travel DoD may require reporting to and/or approval of Foreign Travel (e.g., as a contractual term of Award or as Requirement in Risk Mitigation Plan) As appropriate, acknowledge DoD funding and Award Number. Confirm that participation in conference cannot be construed as collaboration with persons or entities on the Restricted Parties lists. No collaboration with persons or entities on the Restricted Parties lists is allowed.	GENERAL+ Reimbursed Foreign Travel must be reported in DFIC- possible SFI (FCOI) Confirm that the presentation/abstract/collaboration cannot be construed as collaboration that may require prior approval as a foreign component. As appropriate, acknowledge PHS/HHS/NIH funding in accordance with the Steven's Amendment ⁸	GENERAL	GENERAL	GENERAL+ Acknowledge NSF funding and award number. Confirm that participation in conference cannot be construed as collaboration with persons or entities on the Restricted Parties lists. Collaboration with RP is prohibited. ¹⁰
1	Collaboration →Publication: All research was completed in the US, by people in the US*. No publication restrictions. (FRE) All authors still in US with US affiliations. No Foreign Affiliations	(1) No Gratuitous Authorship. Do not provide gratuitous authorship. (2) No Unwarranted Acknowledgement. Do not acknowledge a sponsor if that sponsor's funding was not used for the project reported in the publication. Steven's Amendment: If appropriate to acknowledge PHS/NIH, DoL, DoEd sponsor, follow Steven's Amendment &acknowledgement requirements. (3) Use ORCID: Include your ORCID with all publications. (4) RP Collaborators/Co-authors: Avoid collaborations (including co-authorship) with anyone on a Restricted Parties List. (5) Report US Affiliation: All authors should report US affiliation where the research was done.	GENERAL+ Acknowledge NASA Funding and Award Number. Avoid collaborations/publishing where there is only one foreign author and they are from PRC.	GENERAL+ Acknowledge DoD funding and Award Number. Report Publications on RPPR. No collaboration with persons or entities on the Restricted Parties lists is allowed.	GENERAL+ Acknowledge PHS/HHS/NIH funding in accordance with the Steven's Amendment ⁸ Report Publications on RPPR.	GENERAL+ Acknowledge USDA funding and award number. USDA has general research security disclosure and training requirements, but they do not currently speak to publication. Guidance RE:Publications/Collaborations anticipated. Note: Caltech must certify that the investigator has not been part of a MFGTP for the past 10 years.	GENERAL+ Acknowledge DOE funding and award number. DOE has a subject matter specific Risk Matrix. It does not speak to publications,etc. Risk Matrix and guidance re publication/collaboration anticipated.	GENERAL+ Acknowledge NSF funding and award number. Dear Colleague letter July 2024 ¹⁰ expands risk review and provides prohibitions. No collaboration with persons or entities on the Restricted Parties lists is allowed. Generalized Risk Matrix coming soon. Risk Review has been limited to Quantum Information Science. TRUST Program reviews Appointments, Affiliations and Support. Active Collaboration Review and additional FY27 SBIR/STR Risk Matrix anticipated.
2	Collaboration in US with Visitor from Foreign Entity Collaboration → Publication	No visitors or visitors with current affiliations with an entity on a US Restricted Parties List or visitors who are active in a Foreign Military from a country of concern are allowed at Caltech. All Visiting Researchers should be approved through VAR. ----- If the Collaboration is anticipated to lead to Publication: (1) No Gratuitous Authorship. Do not provide gratuitous authorship. (2) No Unwarranted Acknowledgement. Do not acknowledge a sponsor if that sponsor's funding was not for the project reported in the publication. Steven's Amendment ⁶ : If appropriate to acknowledge PHS/NIH, DoL, DoEd sponsor, follow Steven's Amendment &acknowledgement requirements. (3) Use ORCID: Include your ORCID with all publications. (4) RP Collaborators/Co-authors: Avoid collaborations (including co-authorship) with anyone on a Restricted Parties List. Confirm there is no RP funding used and acknowledged. (5) Report Visitor Affiliation: If Visitor has Foreign Affiliation, confirm that they and their affiliated institution are not on RP list and that no RP funding was used, before proceeding with publication. If RP or RP funding, contact Associate Vice Provost for Research Policy and Compliance for guidance.	GENERAL+ Acknowledge NASA funding and Award Number. The proposed collaboration cannot be a bilateral one with a Chinese Entity. If there are multiple foreign entities7, confirm that the entities are not RP and that no RP funding was used. If visitor or entity is placed on a RP list after arrival and the visitor is from China, collaboration must end and appointment must be terminated.	GENERAL+ Acknowledge DoD funding and award number. Report Publications on RPPR. Confirm there is no RP funding PI should have a documented explanation for all Foreign Affiliations, especially if Visitor leaves and takes residence at a Restricted Party Institution.	GENERAL+ Acknowledge PHS/HHS/NIH funding in accordance with the Steven's Amendment ⁸ Report Publications on RPPR. If Visitor has Foreign Affiliation, NIH may consider this a "Foreign Component" ⁹ that requires pre-approval. Contact Research Security or Office of Sponsored Research for guidance. PI should have a documented explanation for all co-authors with Foreign Affiliations.	GENERAL+ Acknowledge USDA funding and award number. Acknowledge USDA research security disclosure and training requirements, but they do not currently speak to publication. Guidance RE:Publications/Collaborations anticipated. Note: Caltech must certify that the investigator has not been part of a MFGTP for the past 10 years.	GENERAL+ Acknowledge DOE funding and award number. DOE has a subject matter specific Risk Matrix. It does not speak to publications,etc. Risk Matrix and guidance re publication/collaboration anticipated.	GENERAL+ Acknowledge NSF funding and award number. Dear Colleague letter July 2024 ¹⁰ expands risk review and provides prohibitions. No collaboration with persons or entities on the Restricted Parties lists is allowed. Generalized Risk Matrix coming soon. Risk Review has been limited to Quantum Information Science. TRUST Program reviews Appointments, Affiliations and Support. Active Collaboration Review and additional FY27 SBIR/STR Risk Matrix anticipated.

Category	Description	GENERAL: Includes Export Control Guidance	NASA/Wolf Amendment Concerns	Dept of Defense/War (DoD) Funded Project Concerns**	Public Health Service (NIH) Funded Project Concerns**	USDA	Dept. of Energy (DOE)	NSF
3	Collaboration -> Publication: All research was completed in the US, by people in the US*. No publication restrictions. (FRE) Some authors have left US and have Foreign Affiliations. Foreign Affiliations	(1) No Gratuitous Authorship. Do not provide gratuitous authorship. (2) No Unwarranted Acknowledgement. Do not acknowledge a sponsor if that sponsor's funding was not used for the project reported in the publication. Steven's Amendment ⁸ : If appropriate to acknowledge PHS/NIH, DoL, DoEd sponsor, follow Steven's Amendment &acknowledgement requirements. (3) Use ORCID: Include your ORCID with all publications. (4) RP Collaborators/Co-authors: Avoid collaborations (including co-authorship) with anyone on a Restricted Parties List. Confirm there is no RP funding used and acknowledged. (5) Report US Affiliation: Since all research was completed in the US, Collaborator/Co-author should report US (e.g. Caltech) Affiliation. Persons who have left Caltech after research is complete, must report Caltech affiliation on the publication. Authors can include a comment that the individual has since moved to "New (Post-Caltech) Affiliation." If Collaborator/Co-author currently has a Foreign Affiliation, confirm that they and their affiliated institution are not on RP list and that no RP funding was used, before proceeding with publication. If RP or RP funding used, contact Associate Vice Provost for Research Policy and Compliance for guidance.	GENERAL+ * Acknowledge NASA funding and Award Number. * If Co-author leaves, and has new Foreign Affiliation, confirm that the entity is not on a RP list. * If there is only one author, they leave the US and are now affiliated with a Chinese entity, Caltech NASA funded PI cannot continue collaboration with that person. (5) Report US Affiliation: Since all research was completed in the US, Collaborator/Co-author should report US (e.g. Caltech) Affiliation. Persons who have left Caltech after research is complete, must report Caltech affiliation on the publication. Authors can include a comment that the individual has since moved to "New (Post-Caltech) Affiliation." If Collaborator/Co-author currently has a Foreign Affiliation, confirm that they and their affiliated institution are not on RP list and that no RP funding was used, before proceeding with publication. If RP or RP funding used, contact Associate Vice Provost for Research Policy and Compliance for guidance.	GENERAL+ *Acknowledge DoD funding and award number *Report Publications on RPPR. *Confirm there is no RP funding. * Some Caltech Awards Do Not Allow Continued * "Collaboration if the Collaborator has left the US. If your award has such a condition, you may not continue to share data/manuscripts with the researcher who has left the country. * Persons who have left Caltech, must report Caltech affiliation on the publication. They can include a comment that they have since moved to "New (Post-Caltech) Affiliation." * PI should have a documented explanation for all Foreign Affiliations, especially if co-author is now at Restricted Party Institution.	GENERAL+ * Acknowledge PHS/HHS/NIH funding in accordance with the Steven's Amendment ⁸ * Report Publications on RPPR * Persons who have left Caltech, must report Caltech affiliation on the publication. They can include a comment that they have since moved to "New (Post-Caltech) Affiliation." Inclusion of a Foreign Affiliation may result in questions as to whether the foreign institution is a foreign component ⁹ . Contact Research Security or Office of Sponsored Research for guidance. * PI should have a documented explanation for all Foreign Affiliations, especially if co-author is now at Restricted Party Institution.	GENERAL+ * Acknowledge USDA funding and award number. * USDA has general research security disclosure and training requirements, but they do not currently speak to publication. * Guidance RE:Publications/Collaborations anticipated. * Note: Caltech must certify that the investigator has not been part of a MFGTP for the past 10 years.	GENERAL+ * Acknowledge DOE funding and award number. * DOE has a subject matter specific Risk Matrix. It does not speak to publications,etc. * Risk Matrix and guidance re publication/collaboration anticipated.	GENERAL+ Acknowledge NSF funding and award number. Dear Colleague letter July 2024 ¹⁰ expands risk review and provides prohibitions. No collaboration with persons or entities on the Restricted Parties lists is allowed. Generalized Risk Matrix coming soon. Risk Review has been limited to Quantum Information Science. TRUST Program reviews Appointments, Affiliations and Support. Active Collaboration Review and additional FY27 SBIR/STTR Risk Matrix anticipated.
5	Collaboration -> Publication: Some research was done in US*. No publication restrictions. Most research was done in Foreign Country, by people in the Foreign Country. Foreign Affiliations	If the Collaboration is anticipated to lead to Publication: (1) No Gratuitous Authorship. Do not provide gratuitous authorship. (2) No Unwarranted Acknowledgement. Do not acknowledge a sponsor if that sponsor's funding was not used for the project reported in the publication. Steven's Amendment: If appropriate to acknowledge PHS/NIH, DoL, DoEd sponsor, follow Steven's Amendment &acknowledgement requirements. (3) Use ORCID: Include your ORCID with all publications. (4) RP Collaborators/Co-authors: Conduct RPS Screening on all authors and their current affiliation institutions. Avoid collaborations (including co-authorship) with anyone on a Restricted Parties List. Confirm there is no RP funding used and acknowledged. If RP, reconsider collaboration (consider publishing separately). (5) Report Collaborator Affiliation: If Collaborator has Foreign Affiliation, confirm that they and their affiliated institution are not on RP list and that no RP funding was used, before proceeding with publication. If RP or RP funding, contact Associate Vice Provost for Research Policy and Compliance for guidance.	GENERAL+ No NASA funding can be used for any bilateral collaboration with someone affiliated with a Chinese Entity ⁶ . If there are multiple foreign countries involved (three at least, but preferably four or more), you may proceed if no party is on the RP list- see below: Conduct RPS screening of foreign collaborators/co-authors and their affiliated institutions. If RP, do not begin collaboration. If discovered at time of publication that there is RP person, entity or funding, reconsider collaboration (publish separately) and/or contact the Associate Vice Provost for Research Policy and Compliance for guidance.	GENERAL+ Reconsider Collaboration/Publication, especially if Foreign Affiliation is with Restricted Party. RPS Screening of all Foreign Collaborators/Authors and their Affiliated Institutions. If on RPS, reconsider collaboration and publish separately if federal funding is used. Some Caltech Federal Awards Do Not Allow collaboration on a project with individuals outside of the US, including continued collaboration with a person who has left Caltech. Confirm that your award allows for collaboration. If your award has a prohibition on collaborations outside the US, you may not continue to share data/manuscripts with the researcher outside of the US or who has left the country. Confirm there is no RP funding. If acceptable, per above criteria, acknowledge DoD funding and award number. Report Publications on RPPR. Persons who have left Caltech where the research was conducted, must report Caltech affiliation on the publication. They can include a comment that they have since moved to "New (Post-Caltech) Affiliation." PI should have a documented explanation for all Foreign Affiliations, especially if co-author is at Restricted Party Institution.	GENERAL+ Reconsider Collaboration/Publication, especially if Foreign Affiliation is with Restricted Party. Conduct RPS Screening of all Foreign Collaborators/Authors and their Affiliated Institutions. If on RPS, reconsider collaboration and publish separately if federal funding is used. Possible Co-authorship with person in a foreign country: Co-authorship could be a collaboration that is considered a Foreign Component ⁹ by PHS/NIH. Foreign components require prior approval from PHS/NIH. Contact Research Security or Office of Sponsored Research for guidance. If Foreign Collaboration is approved: Acknowledge PHS/HHS/NIH funding in accordance with the Steven's Amendment ⁸ Report Publications on RPPR Persons who have left Caltech after conducting research, must report Caltech affiliation on the publication. They can include a comment that they have since moved to "New (Post-Caltech) Affiliation." PI should have NIH Approval documented and a documented explanation for all Foreign Affiliations. If Foreign Collaboration is not approved:	GENERAL+ * Acknowledge USDA funding and award number. * USDA has general research security disclosure and training requirements, but they do not currently speak to publication. * Guidance RE:Publications/Collaborations anticipated. * Note: Caltech must certify that the investigator has not been part of a MFGTP for the past 10 years.	GENERAL+ * Acknowledge DOE funding and award number. * DOE has a subject matter specific Risk Matrix. It does not speak to publications,etc. * Risk Matrix and guidance re publication/collaboration anticipated.	GENERAL+ Reconsider Collaboration/Publication, especially if Foreign Affiliation is with Restricted Party. Conduct RPS Screening of all Foreign Collaborators/Authors and their Affiliated Institutions. If on RPS, reconsider collaboration and publish separately if federal funding is used. Dear Colleague letter July 2024 ¹⁰ expands risk review and provides prohibitions. No collaboration with persons or entities on the Restricted Parties lists is allowed. Acknowledge NSF funding and award number. Generalized Risk Matrix coming soon. Risk Review has been limited to Quantum Information Science. TRUST Program reviews Appointments, Affiliations and Support. Active Collaboration Review and additional FY27 SBIR/STTR Risk Matrix anticipated.

*If there is a Visitor who has an Affiliation with an Entity from a Foreign Country, they would be considered Category 4 for Collaboration Purposes, even if they did the research in the US (because they would report their foreign affiliation in a publication)
** Do not send US funding to Foreign Entity unless approved by the Agency.

Notes:

¹ **Fundamental Research (FRE)** means research in science, engineering, or mathematics, the results of which ordinarily are published and shared broadly within the research community, and for which the researchers have not accepted restrictions for proprietary or national security reasons. Prepublication review is conducted solely to ensure that publication would not compromise patent rights, so long as the review causes no more than a temporary delay in publication of the research results AND/OR Prepublication review is conducted by a sponsor of research solely to insure that the publication would not inadvertently divulge proprietary information that the sponsor has furnished to the researchers. 15 CFR 734.8
https://www.ecfr.gov/current/title-15/subtitle-B/chapter-VII/subchapter-C/part-734/section-734.8

² **INSIDE the US:** General scientific discussions with non-US parties are always permissible when they focus on fundamental research and information in the public domain

³ **OUTSIDE OF US:** Using Visual Compliance, scan all potential collaborators from Russia, Iran, Syria, N. Korea, China, Cuba, and Venezuela (Countries of Concern) as they are either embargoed or otherwise heavily regulated

⁴**US Restricted Parties (RP). Restricted Parties Screening (RPS):** Federal restricted party lists are lists of people, companies, institutions or foreign ⁵Agencies that the U.S. Government has identified as being of concern to U.S. national security. The federal government maintains several lists of restricted parties, which it routinely updates. Some examples are the Department of Defense (DOD) 1286 List, the Bureau of Industry and Security (BIS) Denied Persons list, BIS Entity List and the Office of Foreign Asset Controls (OFAC) Specially Designated Nationals and Blocked Persons list. Caltech has a paid subscription with a commercial entity that can be used to search all these lists. Contact researchsecurity@caltech.edu for access to this search engine. As a preliminary screen, researchers can use <https://www.trade.gov/data-visualization/csl-search> and <https://sanctionssearch.ofac.treas.gov/> and <https://sanctions-finder.com/>. These sites may also be helpful if traveling. If there is a "hit" please contact researchsecurity@caltech.edu as soon as possible.

⁵ **Open Conference:** International conferences or other international exchanges, research projects or programs that involve open and reciprocal exchange of scientific information, and which are aimed at advancing international scientific understanding and not otherwise controlled under current law are considered an open conference; <https://rt.cto.mil/wp-content/uploads/2025/03/Sec-10631-and-10632-of-CHIPS-and-Science-Act.pdf>

When attending a conference abroad, consider the host institution and ensure it is not on the RPS list. Consider the subject matter and who you are engaging with. You may not share non-public information with people from Countries of Concern or those on the RPS list.

When hosting a conference abroad, scan participants in Visual Compliance to ensure they are not from Countries of Concern or otherwise on the RPS List.

Conferences must meet the criteria for open conferences.”

⁶ **Chinese Entity:** A Chinese national or an individual from/representing a Chinese university, institution, business, government, or other entity who is NOT a Caltech student, postdoc, staff or faculty

⁷Caltech personnel, including students, postdocs, staff and faculty, who are foreign persons (e.g. here on a visa) CANNOT count as an additional foreign entity as part of a collaboration. For example, including a regular (not visiting) German Caltech student as a participant cannot transform a bilateral agreeeme

⁸ **Steven's Amendment**, Public Law 101-166, Section 511: SEC. 511. When issuing statements, press releases, requests for proposals, bid solicitations and other documents describing projects or programs funded in whole or in part with Federal money, all grantees receiving Federal funds, including but not limited to State and local governments, shall clearly state (1) the percentage of the total costs of the program or project which will be financed with Federal money, (2) the dollar amount of Federal funds for the project or program, and (3) percentage and dollar amount of the total costs of the project or program that will be financed by nongovernmental sources. <https://www.congress.gov/101/statute/STATUTE-103/STATUTE-103-Pg1159.pdf>

⁹ **Definition of Foreign Components NOT-OD-26-084:**Most instances of co-authorship represent a foreign component. The NIH recognizes, however, that certain contributions are so minor that they do not constitute an actual collaboration. For example, the provision of a single reagent might not be a collaboration but could result in co-authorship. In addition, occasionally co-authorship arises through indirect association, such as when an NIH-funded researcher and a foreign researcher both independently work with the same domestic collaborator but only learn of this fact when a manuscript is prepared describing the work. In all cases, NIH recipients should report foreign co-authorship to the funding Institute or Center as soon as they are aware of it to determine what steps, if any, need to be taken. <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-26-084.html>

¹⁰ **NSF Dear Colleague Letter:** Prohibition on Collaborations with Restrictd Entities. NSF appropriated funds shall not be used for grants, contracts, other transactions or other assistance to an organization if the purpose is to conduct research in collaboration with restricted entities. This funding prohibition also extends to the employees of such restricted entities.

Senior/key personnel are prohibited from holding an appointment or position with, or receiving research support from, a restricted entity. Further, senior/key personnel are prohibited from collaborating with a restricted entity, or employee thereof, on research funded by their NSF award.

The performance of any significant scientific element or segment of a project outside of the United States, either by the recipient or by a researcher employed by a foreign organization, whether or not grant funds are expended. Activities that would meet this definition include, but are not limited to, (1) the involvement of human subjects or animals at a foreign site, (2) extensive foreign travel by recipient project staff for the purpose of data collection, surveying, sampling, and similar activities, or (3) any activity of the recipient that may have an impact on U.S. foreign policy through involvement in the affairs or environment of a foreign country. Examples of other grant-related activities that may be significant include:

- "collaborations with investigators at a foreign site anticipated to result in co-authorship;"
- use of facilities or instrumentation at a foreign site; or
- receipt of financial support or resources from a foreign entity.
